Vibe PC Installation Instructions (R_5.0)

Dear Customers, in this document we will give instructions on how to install the Vibe PC software.

You'll need a computer with an active internet connection to download the software.

Minimum requirements:

- Windows 10 at least.
- 8GB of disk space (preferably SSD).
- 8GB of RAM.
- OpenGL version 4.3.
- Recommended external graphic card.
- Recommended strong CPU.

Limitations:

- A Stand-alone PC instance will have free 64 universes of VC, 1 Artnet and 1 sACN.
- A Stand-alone PC instance will have random 10 second blackouts.
- Expansion options:
 - Any ePort will open additional Artnet and sACN universes (ePort2 will open 2, ePort8 will open 8 etc.)
 - A PC Wing (also Vector PC Wings) will open 16 universes.
 - The only way to remove the random blackouts, at the moment, is by connecting to a PC Wing.

ATTENTION!!! The PC software installation is needed only the first time. The future releases can be installed directly from the software's Offline Tool, with the Software Updates function.

9 Hanagar St. Neve Ne'eman B, Industrial Zone 4501310, Hod Hasharon, ISRAEL T:+972-9-7446555 F:-9-7466515 www.compulite.com info@compulite.com

Installation Process:

- 1. On a computer with internet connection download the zip file.
- 2. Extract the Zip file and you will get the Self-Extract .exe file.
- 3. Run as Administrator the Vibe PC R_5.0.exe file.
- 4. The self-extract operation will start. It may take a few seconds.
- 5. Once finished, if not installed already on your computer, you will be asked to install some prerequisites on this window:

Vibe PC - InstallShield Wizard
Vibe PC requires the following items to be installed on your computer. Click Install to begin installing these requirements.
Status Requirement Pending Microsoft SQL Server 2012 Native Client 11.4.7001.0 (x64)
Install Cancel

Click Install.

(If you don't get this window, it means your PC already have what's needed).

Let the installation finish. If prompted while the process is active, restart the PC and the installation process will continue automatically after the restart.
